# HOSTILE ENVIRONMENT TRAINING

PANGOLIN GROUP

## WHO WE ARE

Pangolin Group provides discreet, high quality, bespoke and relevant training to Media, Human Rights and select corporate organisations that have a requirement to operate within areas where there is an increased risk to staff.

## WHAT IS HOSTILE ENVIRONMENT TRAINING (HEFAT)?

Our HEFAT is an interactive and hands on course that aims to enhance the expertise of individuals, giving them the confidence and skills to reduce risks, no matter what their background and expertise.

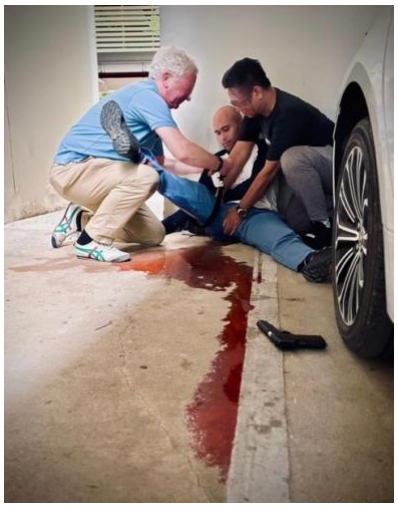

## JOIN US

We regularly hold courses worldwide – Our next Asia bespoke course will take place in Chiang Mai, Thailand. A fully residential course at our venue within 15mins of the airport.

**CHIANG MAI HEFAT – January 12th – 15th , 2027**

## WHO WILL TEACH US?

Pangolin instructors are all drawn from Military, Law Enforcement or Paramedic backgrounds.

## WHY SHOULD WE ATTEND?

We strive to make the subject matter as up-to-date, relevant, inclusive and as practical as possible.

Within strict Health & Safety Guidelines we put participants through as realistic experiences as possible to simulate what they might encounter in a hostile environment.

We believe this serves to emphasise our teaching points and makes Pangolin HEFAT as memorable and formative experience as possible, which we believe helps in any real life situation.
To date Pangolin has successfully and safely Certified over 5000 staff. Both preparing them individually and satisfying the Duty of Care for the organistion.
